

Florida's 2013 Legislative Session Begins March 5th!

Libraries across the state are counting on their community supporters to effectively advocate for increased library funding during the 2013 legislative session. The message from the Florida Library Association to the legislators is simple: **Florida Libraries continue to provide innovative services that transform the lives of Floridians despite budget cuts!** As commendable and true as that statement is, the truth is that libraries need to see their funding restored if they are to continue to provide the residents of Florida with the innovative and wide ranging services that are needed and expected in each of our communities. The Florida Library Association's 2013 Legislative Platform supports libraries of all types in Florida and key to public libraries is the support for State Aid to Public Libraries. The platform calls for the following: **State Aid to Public Libraries –FLA supports working toward the restoration of State Aid from the current \$21,300,000 to the \$33,400,000 appropriated in 2000-2001.** Governor Scott's budget recommendations include \$20,235,401 for State Aid, the minimum amount required for Florida to receive its full allocation of vitally needed federal Library Services and Technology Act funds. This is a great starting place but libraries need to see state aid funding increased not reduced.

You can help by contacting your local legislators and the Governor's Office and thanking them for their past support. Welcome our new legislators and encourage them to do the same. Share with them the ways that libraries improve the quality of life for Floridians by telling your library story and what the library means to you and your community. The message is simple. The state needs to restore funding **for State Aid to Public Libraries because Florida's libraries transform lives!**
